**“ACCELERATING BUSINESS AND TECHNOLOGIES”**

**“We dedicate to provide the optimal solutions for our clients with finest and unique technologies”**

# CAPABILITY STATEMENT

**I.T.A. Inc., is the NO.1 solution to your Business and**

**Technology.** Specialize in perfecting in your manufacturing, Industrial Products Distribution, MROs, Specialized Equipment/Materials sales (industrial and office related products), technology support including IT, R&D specialty equipment & tools, service robots, small but sophisticated contract manufacturing and prototyping, Import / Export, including business development and market entry into Japan.

**Major Customers:**

Gunei Chemical, Denso, Meiji Corporation, Mitsubishi Chemical, Mitsui Chemical, NTN, Mitsubishi Electric Automation, SANEI Chemical, Toray. Governments: Japan External Trade Organization (JETRO), Japan SME

**Partial (Indirect) Clients:**

Ford (participate in Supplier portal), GM, Toyota, Waldom Electronics

**Selected Products and Services:**

**1. Miracle Boy High-Performance Industrial Oil Filtration Device**

Keep oil fresh, preventing oil deterioration. Reduce machine downtime. Can be used with almost all machine such as compressors, generators, etc. Record of 20 years without oil change after Miracle Boy Filtration implemented.

*Our unit recycle 99% of machine oil.*

ESG

**2. For Your Production, Operating & Asset& Material Management Super RFID Long Readable Distance**

The Super RFID shows **66 to 98ft Long Range** performance on the metal and **can be detectable in water and metal box.**

Remote

**3. For Your Production Engineering & Design R&D #Durable #Cost Savings #Lightweight Perforated Metal Sheet SUPER PUNCHING (ISO 9001)**

It allows holes to be smaller than the material thickness and can be done on challenging metals i.e., stainless steel, special material.

- ✓ High-Pressure Resistance
- ✓ Long-Lasting
- ✓ Greater Durability
- ✓ Significant Cost Savings
